ABOUT IHL

For over 15 years, the Institute for Healthy Living has provided evidence-based psychological care to adults, adolescents, and children across a broad range of presentations, from everyday wellbeing through to complex, high-risk and comorbid cases.

Every referral is carefully matched to the right clinician by presentation, complexity and fit, with first appointments typically available within 1–2 weeks. With client consent, we work collaboratively with GPs, psychiatrists, paediatricians, dieticians, and allied health colleagues throughout the course of treatment.

WAIT	Same-day triage · Appointments within 1–2 weeks
ACCESS	Near public transport · Wheelchair accessible

WHY REFER TO IHL

Comprehensive Intake & Clinician Matching

All referrals are triaged by a trained team. A structured intake framework ensures clients are matched to the most appropriate clinician, prioritising presentation, complexity, and client autonomy.

Timely Access & Continuity

Same-day triage of all referrals. First appointments typically within 1–2 weeks. Timely progress reports and clinical correspondence to the treating team throughout treatment.

Depth of Clinical Capability

15+ clinically trained and AHPRA-registered psychologists with experience across the full spectrum of presentations, including complex, high-risk and comorbid cases.

Evidence-Based & Integrative

CBT, DBT, Schema Therapy, EMDR, ACT and other modality-informed approaches. Treatment is individually tailored to presentation and goals. Short and long-term therapy options available.

REFERRAL PATHWAY

01

Submit Referral

Submit via HealthLink, online form, email, or fax. Direct referrals accepted from psychiatrists and paediatricians. All referrals triaged same day.

02

Clinician Matching

Every referral undergoes a detailed clinical review, matched by presentation, complexity, age, comorbidities, and clinician expertise. Thorough by design.

03

Appointment & Feedback

First appointment typically within 1–2 weeks. Progress reports provided to the treating team at clinically appropriate intervals, with client consent.
